## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 56, 57, 63, 65, 66 and 67 are rejected under 35 U.S.C. 102(b) as being anticipated by Greene, U.S. 1,491,986.

Greene discloses in a diverter sub (15) connected to a tubular (at 16,D) and a drill string (D) having a side port (18) closed by a flapper valve (V); wherein the valve closes the port in one position allowing axial flow and opens the side port allowing flow therethrough while stopping axial flow (p. 1, lines 74-95).

Greene discloses a substantial metal seal (p.1, lines 80-85) and passage (P).

### ***Allowable Subject Matter***

Claims 58-62, 64 and 68 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 69-72 are allowed.
